DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on 10/5/07 has been entered.

Response to Amendment

2. This communication is in response to the amendments filed 10/5/07. Claims 20, 21, 23, 35, 36 and 38 have been canceled. Claims 9-19, 22, 24-34, 37 and 39 are presented for examination.

Information Disclosure Statement

3. The information disclosure statement filed 9/25/07 has been acknowledged and entered.

Allowable Subject Matter

4. Claims 9-19, 22, 24-34, 37 and 39 are allowed. The following is an examiner's statement of reasons for allowance: The primary reasons for the allowance of claims 9-19, 22, 24-34, 37 and 39 is the inclusion of the limitation in the claims, which is not found in the prior art references, of a method for utilizing physician notes in a healthcare system comprising: utilizing the output to determine if intervention is warranted, wherein the monitoring and determining if warranted for the patient occurs in an automated fashion at the remote command center 24 hours

Art Unit: 3626

per day 7 days per week. This along with further limitations set forth by the claims render the application allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

In related art (Remote Telemetry) Capuano et al discloses that availability of telemetry beds increased cost effectively at Lehigh Valley Hospital Center by providing telemetry on medical/surgical units with remote monitoring at designed critical area 24 hours live coverage was supplied with beeper coverage for the initial two-week period.

In related art (3,646,606) Buxton et al. teaches the physiological monitoring system of patient in a hospital including continuous monitoring of the patient which is transmitted to a central monitor.

The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure as background material and is not of particular significance. These prior art patents fail to teach or fairly suggest a method for utilizing physician notes in a healthcare system comprising: utilizing the output to determine if intervention is warranted, wherein the monitoring and determining if warranted for the patient occurs in an automated fashion at the remote command center 24 hours per day 7 days per week.
